Ms Dortch,

Please consider this letter of Window Waiver Request for Form 471 Application #933387 filed with USAC Schools and Libraries Division on 04/04/13. An error in calendaring and communications was made on our part which led us to believe we were still within the filing window when we initially filed the related Form 470 Application #270580001132379. This error was unintentional and has been corrected. We are also newcomers to eRate and are working hard to meet all deadlines. Form 471 was filed on the earliest allowable date.

We apologize and ask the Commission to please waive the Form 471 filing deadline for Application #933387 and restore the application to In Window status.

Thank you for your consideration,

David Hofland, Technology Coordinator
North Lakes Academy
